Foursome for golf and dinner

Anna was diagnosed in 2010 with Rhabdomyosarcoma, a rare and aggressive soft tissue cancer. Anna began an aggressive treatment plan that consisted of 54 weeks of chemotherapy and 28 days of radiation. Overall, Anna didn't let cancer get her down. She laughed, played, danced and sang all the time. She had a smile that could light up a room.

She relapsed at week 53 of her treatment. Further treatments and surgery were ineffective. Anna died in her mother's arms, at the age of 5, on May 22, 2012. This golf outing is one of the fundraising activities that raises money for the Anna Weitz Foundation for Childhood Cancer
